GRACE 1970

GRACE THEOLOGICAL SEMINARY
WINONA LAKE, INDIANA

YOUR LORD DOTH COME

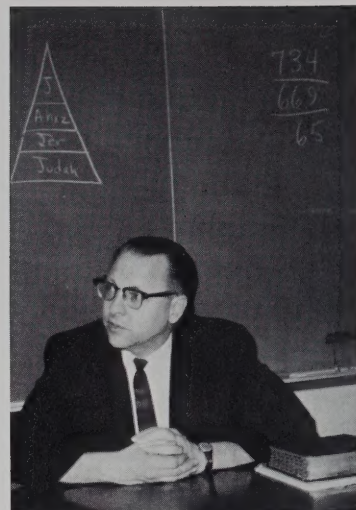

In these days of complexity and perplexity, imposed by the modern world, there is a special demand placed upon all Christians: They must live the life of Christ! No greater is that task than for the student, preparing to meet tomorrow's challenges. Thus, this 1970 Grace Seminary Yearbook is dedicated to the Lord and Savior Jesus Christ, for only in Him can Christians live faithfully to His Soon Coming.

POSTGRADUATES

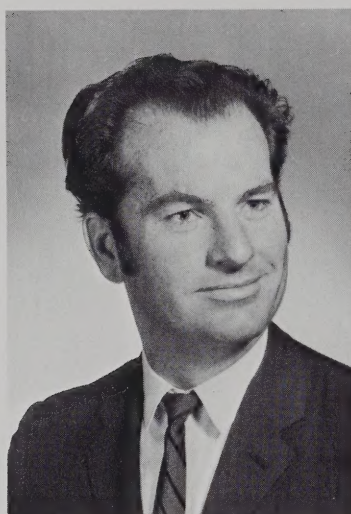

The Postgraduate Division is a series of seminars covering topics during the year. The Spring Semester students investigated various types of Biblical literature, interpreted in the light of Biblical hermeneutics.

SENIORS

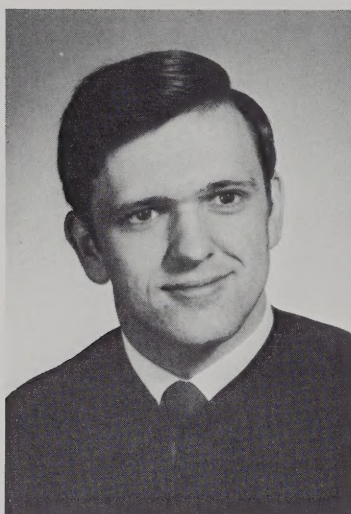

The long, sought goal of GRADUATION is very near at hand. The senior year can be said to have many "lasts," the greatest being the critical monograph. It is hoped that these Seniors will not be remembered only for what they have done, but what they can and will do for God's Glory.

MIDDLERS

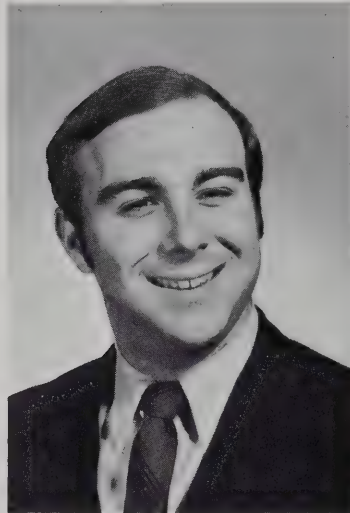

What is a Middler? It is not a mediocre student, for he has not the time for meaningless tasks. The Middler Year is a continuation of the process "of the making of the man of God." It is sharpening the tools that he acquired the year before, for example, Hebrew exegesis. It is continuing the theology series or the English Bible studies. A Middler's time is not labored in vain, as the Senior Year will prove this.

JUNIORS

The Junior Year is a year of firsts. Who can forget the first semester of Hebrew? Because of their previous education, some will experience a complete reversal in thought. Instead of testing a scientific theory in the chemical laboratory, they will make a thorough examination of a Bible verse for application in life's laboratory--the world. The Junior has begun to press toward the mark of making the more perfect man of God.
